## 2 Umpire System (Rotation) Fast Pitch and Modified Pitch

The 2 umpire system requires that umpires move into positions appropriate for each play. The information referring to positioning and the calling of plays is written for ideal circumstances and for the best possible positioning for the majority of plays. Proper positioning can be achieved if you think in terms of 'keeping the play in front of you'. In order to do this there are four basic elements that must be kept in your vision.

- 1 The ball
- 2 The defensive player making the play
- 3 The batter runner or runner and
- 4 The base or area where the above elements meet

### Three Basic Principles

There are three basic principles that apply to the Two Umpire Rotation System; the division principle, the infield/outfield principle and the leading runner principle.

#### 1 The Division Principle

The home Plate Umpire takes all calls at Home Plate and third base and the Base Umpire takes all calls at first and second bases.

#### Exceptions

- 1 When the Batter Runner goes to third base, the Base Umpire then takes Batter Runner to third
- 2 On an Infield play, the Base Umpire takes the first call on a base, even if it is at third base
- 3 When a Runner steals to third base, the Base Umpire takes the call
- 4 If you must deviate, communicate your deviation to your partner

## 2 The Infield/Outfield Principle

When the ball is in the infield, the Base Umpire moves or stays in the outfield.

When the ball is in the outfield, the Base Umpire moves to a position in the infield.

## 3 The Leading Runner Principle

The base umpire should start in a position that is up with the lead runner. The expectation is that, on a pick-off play, (a play where the catcher attempts to put out a Runner leading off from a base on the pitch) the catcher will play the lead runner and therefore the base umpire needs to be in a position to make this call.

**Note:** It is the responsibility of **both umpires** to ensure **all bases** are covered in Tag-Up (re-touching the base after a fly ball is first touched on a catch) situations.

All umpires must watch for, Tags, Obstruction, Interferences, Touched Bases, Runners passing each other, Blocked Balls, etc.

Prior to the pitch the umpire should stand relaxed. He should be focused on the pitch and the batter, be ready and mobile for a possible play. During a call it is important to be still and focused on the play in front of you.

### Conventions

The conventions used to describe the situations in this manual are:

1. The plate umpire is referred to as 'Plate' or 'P' and the base umpire is 'Base' or 'B'.
2. Runners at 1st, 2nd and 3rd bases are indicated with 'R'
3. 1<sup>st</sup> movement of the umpire's is 
- 2<sup>nd</sup> Movement of the umpire's is 
- 1<sup>st</sup> Movement of the ball is 
- 2<sup>nd</sup> Movement of the ball 
- (indicating all potential secondary plays available to the fielders)
4. Icons used in this manual:

### Plate Umpire Starting Position

In all cases, the plate umpire's starting position and actions are as follows:

- Sweeps the home plate and checks that the field is clear and ready for play.
- Should take up a position behind the catcher.
- After each pitch, you should call Ball or Strike, give signals as required and then relax, while maintaining good general awareness.
- Responsible for calling:
  - Illegal Pitches
  - Fair/Foul Balls
  - Batting infractions

- On every hit exit from behind the catcher via the left (even on a left handed batter) and rotate to your position.
- If the ball is close to the foul line, move to the line and straddle the line to make the fair/foul call.
- On infield hits, with no runners, trail the batter runner 1/3 of the way to 1<sup>st</sup> base; with runner on 1st base only, trail runner ¼ way to home plate then move to foul territory on the 3<sup>rd</sup> base side for possible call on R1 at 3<sup>rd</sup> base; and with runners on second or third base, stay in foul territory and watch batter runner to 1<sup>st</sup> base

Movements are always dictated by the principle of keeping the four elements in front of the umpire.

### **Base Umpire Ready Position**

The Base Umpire should assume a ready position by:

- Facing SQUARE TO THE BATTER prior to the pitch, always being able to see both the pitcher and the home plate area.
- As the pitcher assumes the set position (hands together), the umpire should place his feet a comfortable distance apart (at least shoulder width), stay relaxed but still.
- As the pitcher releases the pitch adopt the 'ready' position by unlocking the knees slightly, with your weight resting lightly on the balls of the feet and the hands drawn in, close to the belt line in front of the body.
- Remain in this position until the catcher catches the ball or the ball is hit.

Once the ball is hit or thrown, the umpire pushes off on the balls of his feet and moves to position for a potential play.

### **Base Umpire Position for Calls**

Prior to the pitch the base umpire should stand relaxed. With no runners on, the starting position is 5-6 meters (18 feet) behind 1<sup>st</sup> base in foul territory, 150 mm (6 inches) off the line. With runners on the starting position is 4 meters (15 feet) behind the base line. On force plays call from 5 – 6 meters (18 feet). On tag plays move to 3 meters (10-12 feet) to see and make the call. At the start of the pitch be focused on the pitch and the batter, be ready and mobile for a possible play. During a call it is important to be still and keep the four elements in front of you, i.e. ball, base, defensive player and offensive player.

## Between Inning Position

### Starting position

#### Plate Umpire

- After the Plate meeting, stand in a position just off the third base line in Foul Territory approximately one third of the way to third base
- Hustle the teams on and off the field
- Stand facing the diamond with your hands relaxed at your sides
- Observe the Warm-Up Pitches (five allowed for each pitcher in the first innings and with each new pitcher. Then three warm up pitches are allowed at the start of each half innings)
- Let the Catcher know when the second to last Warm-Up Pitch has been thrown, then say 'one more Catcher'
- Replenish extra ball supply
- Sweep the home plate and then assume a position behind the Catcher after the Warm-Up Pitches

During the first half inning and when there is a change of pitchers, you may wish to put on the mask and observe the Warm-Ups after making the line-up changes and announcing them to the Official Scorer

#### Base Umpire

- After the plate meeting, stand in a position just off the first base line in Foul Territory approximately one third of the way to first base
- Hustle the teams on and off the field.
- Stand facing the diamond with your hands relaxed at your sides.
- After the warm-up pitches in the top half of the 1st inning clean the pitching plate and then hustle to your preliminary starting position. Clean pitcher plate after the last out in the half inning thereafter.
