

Good day all,

With much head scratching, I have come up with the attached schedule for the weekend.

Please check your assignments and point out all the errors that probably exist.

With the number of available people, I have tried to have most people work either Saturday or Sunday only (giving you a day off!)

I worked off the availability information (shown below) that was given to me. If any of the information is wrong and needs adjustment, let me know that too.
