Your comments:	<ul style="list-style-type: none"> - Looks the part – shirt, hat, pants, ball bag – good job - Started quiet and a bit nervous, but got louder as the game progressed - Made a couple of quick foul ball calls along the baseline early, then started to delay very nicely until ball touched or stopped - Made adjustment into the slot after it was pointed out, and called a very consistent strike zone
Suggestions for improvement:	<ul style="list-style-type: none"> - When calling a dead ball, make sure that everyone hears you – continue to work on being louder - Remember to signal the count at important times – ball 3, strike 2 - Practice removing mask on hit balls, and passed balls
