Your comments:	<ul style="list-style-type: none"> <li>• Game 3, good job differentiating between applying and holding tag and runner “being pushed off” at 2B</li> <li>• Game 2, ensure that pitchers are coming to clear and discernable pause ... Coaldale pitcher may not have been pausing</li> <li>• Coach must wear mask to warmup pitcher</li> <li>• Obstruction – plays HP, pitcher cannot block plate without possession of ball</li> </ul>
Suggestions for improvement:	<ul style="list-style-type: none"> <li>• Mask off on batted balls – good job improving on that at provincials</li> <li>• Trail B-R up first base line</li> <li>• Defensive charged conference – remember to tell the coach how many, and don’t let it go on too long – go get the coach as required</li> <li>• On HBP, remember to get out between batter and pitcher and escort batter to 1B</li> <li>• Signal and call obstruction whenever it occurs</li> <li>• With baserunner, be ready for possible 2<sup>nd</sup> play on infield at 3B; BU has first play at 1B, you have call at 3B</li> </ul>
